## ABOUT US

Matrix Flooring Solutions stands out from the competition in numerous ways. Our team's dedication to our customers is paramount and largely responsible for our success. We aim to meet and exceed where possible in every product that we supply.

Matrix Flooring Solutions provides a bespoke logo matting service to customers via a tried and tested method known as "Graphic inlay". This is where the material (normally coir) is pre-dyed in the manufacturing process, then the design is cut and inserted together in a very similar way to a jigsaw, before being pieced together with positive/negative pieces to create the desired image, then bonded using our own bespoke adhering method. The result effect is an entrance mat that is far more durable than a printed mat. We also offer a "rush service" where mats can be turned around within 5 working days from artwork approval.

## BRUSH MATTING

Brush Mat is a 100% synthetic alternative to coir entrance matting. There are some advantages of this fantastic product over the traditional coir mat. Being synthetic, it does not moult or shed like other traditional products. It has a total height of 13.5mm, so can be used in areas where 17mm coir is not suitable.

Available in 7 different colours, it is resistant to rot and water. It is extremely durable and has excellent scraping attributes. This product is mainly used in mat wells areas although if preferred can be used as a loose lay entrance matting product.

<b>TOTAL HEIGHT</b>	13.5mm
<b>MAX SIZE</b>	200cm x 2000cm
<b>INDOOR USE ONLY</b>	Yes
<b>WEAR PROPERTIES</b>	Excellent
<b>NO OF COLOURS</b>	7
<b>WASHABLE</b>	No
<b>LEAD TIME</b>	5 Days

## NYLON PRINT MATS

Consisting of a durable nylon fibre and heavy duty nitrile back (both flat and gripper backing available) the mats that we supply are able to be machine washed (at 30 degrees) to clean once dirty. As an assurance of quality, our printed mats come with a 2 year warranty against manufacturing defects.

<b>TOTAL HEIGHT</b>	9.5mm
<b>MAX SIZE</b> (Longer available with surcharge)	200cm x 400cm
<b>INDOOR USE ONLY</b>	Yes
<b>WEAR PROPERTIES</b>	Good
<b>NO OF COLOURS</b>	20
<b>WASHABLE</b>	Yes
<b>LEAD TIME</b>	10 Working Days
